

WHARF AND WAVE.

ARRIVED.

Friday, January 31.
Am. bk. Mauna Ala, Smith, 16 days from San Francisco; 7 a. m.
S. S. Alameda, Herriman, from San Francisco; 3 p. m.
Am. bk. Kate Davenport, Rosendal, 32 days from Port Blakeley.

Saturday, February 1.

Am. schr. Emma Claudina, Nickel, 25 days from Eureka.
Am. bk. Carrollton, Jones, 34 days from Tacoma.
Str. Ke Au Hou, Mosher, from Kauai ports.

Str. James Makee, Bruhn, from Kauai ports.

Str. Waialeale, Piltz, from Kauai ports.

Str. John Cummins, Searle, from Koolau ports.

Str. Nihau, Thompson, from Hawaii ports; 1,530 bags sugar, 145 bundles hides, 16 bales and 1 package sundries.

Str. Lohua, Napala, from Maui ports.

Str. Kinai, Freeman, from Hilo and way ports.

Am. bk. Mohican, Kelley, 13 days from San Francisco.

Schr. Mokihana, from Koolau ports; 2 a. m.

Am. schr. Eva, Bjorstrom, 16 days from Eureka.

Sunday, February 2.

Str. Claudine, Parker, from Maui ports.

Str. Iwalani, Greene, from Hanalei.

Str. W. G. Hall, Thompson, from Kauai ports.

Am. bk. Sonoma, Stensland, 84 days out from Newcastle; anchored outside about midnight.

February 2.

Ger. sp. Marie Hackfeld, Wuhmann, 13 days from Hamburg.

Dr. bk. Peter Iredale, Lawrence, 67 days from Newcastle.

Gaso, schr. Eclipse, Townsend, from Lahaina, Kihel, Makana, Kailua, Napoosoo and Hokena at 5 a. m. with 30 head cattle, 200 bags coffee, 50 bbls. bananas, 130 bags charcoal, 130 bags taro, 35 pkgs. sundries.

HANA.

Friday, January 31.
Am. schr. H. C. Wright, Nielson, 21 days from San Francisco.

DEPARTED.

Friday, January 31.
S. S. Doric, Smith, for San Francisco; 9 a. m.

Str. Mauna Loa, Simerson, for Lahaina, Maunaloa, Kona and Kauai ports; 12 m.

Str. Nona, Pederson, for Lahaina, Kaunapali, Honokaa and Kukuhaele; 5 p. m.

S. S. Hawaiian, Nichols, for Kaunapali and Hilo, en route to New York; 9 a. m.

Schr. Concord, Mana, for Paauilo; 9 a. m.

Str. J. A. Cummins, Searle, for Koolau ports; 10 a. m.

February 3.

Schr. Lady, Nelson, for Koolau ports at 5 p. m.

Str. James Makee, Tulett, for Hanalei and Ahukini at 5 p. m.

Str. Ke Au Hou, Mosher, for Kilauea and Anahola at 5 p. m.

Am. schr. Golden Shore, Rasmussen, for Port Townsend, at 8:30 a. m.

HILO SHIPPING.

Charters for Hilo—Am. schr. Allen A. Grays Harbor.

Am. schr. Enterprise, San Francisco, Ship Falls of Clyde, San Francisco.

Am. schr. Mary Dodge, Grays Harbor, bk. Rhoderick, Oahu, San Francisco.

Bk. St. Catherine, San Francisco.

Vessels in Port—Am. bk. Annie Johnson, Williams.

Am. bk. Amy Turner, Warland.

Am. ship. Marion Chilcott, Nelson.

Am. bk. Martha Davis, McAlman.

Am. bk. Santiago, Ingalls.

Am. bk. St. Catherine, Saunders.

Arrived—Jan. 26—Am. bk. St. Catherine, Saunders, 18 days from San Francisco; general merchandise for H. Hackfeld & Co., 4 head horses for Hawaii Mill Co., and 15 head horses for Volcano Stables.

Jan. 27—Schr. Chas. L. Woodbury, Harris, from Honolulu; cargo merchandise.

Jan. 28—Am. ship Falls of Clyde, Matur, 17 days from San Francisco; general merchandise to Matson Navigation Co.

Passengers—Mrs. Carter and two children, Chas. K. Hyde, Frank L. Winter, Miss E. J. Chapman, Mr. J. V. Ray, wife and two children, Mr. and Mrs. Hutchinson, B. D. Johnson, J. A. Combs, J. R. Dacast, Mrs. W. H. Lambert.

Sailed—Am. bk. Ceylon, Willar, for Honolulu.

MAUI SHIPPING.

Vessels in Port, Kahului—Am. schr. James Rolph, Edwards, from Newcastle, coal.

Am. bark Edward May, Hansen, from Kihel, ballast.

Am. S. S. Hyades, Garlick, from Honolulu, merchandise.

Am. S. S. Tampico, Farden, from Honolulu, merchandise.

Arrived—Jan. 25, schr. James Rolph, J. Edwards, 46 days from Newcastle, coal.

Jan. 26th, S. S. Hyades, Garlick, one day from Honolulu, general merchandise.

Jan. 27th, bark Edward May, one day from Kihel, to load sugar.

Jan. 28th, S. S. Tampico, Farden, one day from Honolulu, general merchandise.

Gunboat Contracts.

The result of the tenders called for the construction of gunboats for the Manila government was made public a short time ago. Twenty vessels are to be constructed measuring 140 feet in length, 22 feet beam, draft average 9 feet, and to steam ten knots.

The vessels were to have iron frames and wooden hulls made of teak, and constructed to carry three guns and one searchlight. The tender of different companies was as follows, and the successful bidder, Shanghai Company, contracted to deliver all the vessels within nineteen months:

Shanghai Farnham Boyd & Co., \$52,237; Uraga Dock Company, \$56,250; Bilew Company, \$60,000; a Chinese, \$61,160; Flemming, \$71,440; Mitsui Bishi Dockyard Company, \$74,500; Hongkong Dock Company, \$85,000; Ishikawajima Dock Company, \$85,361; Manila Company, \$87,000; Kawasaki Dockyard Company, \$90,000.

Articles of Incorporation of the Wahee Rice Plantation Company, of Wailuku, Maui, were filed yesterday. The capital stock is \$5,000, and the shareholders are Y. Ahn, Young Young, S. Ahn, Young Kam Ung Hook and Lum Lung.

The business of the new corporation will be the cultivation and milling of rice and paddy, and the cultivation of bananas and other fruits, vegetables, grass and hay, to include the raising of poultry and live stock.

REPUBLICANS WILL TALK
CANDIDATE AND SECRETARY

WHAT promises to be a discussion of interest to the Republicans will be that of whether or not there shall be made a fight for the empty honor of representing the Fourth District as a member of the Legislature. There are two sides already well defined, in the Territorial committee which is to hold a session this evening.

Those there are who believe that there should be no nomination made by the Republicans, owing to the fact that there will be no extra session, and therefore no necessity for representation, while there are others who deprecate the necessity for making the fight, but who believe there would result something in the matter of loss of prestige should the party simply allow the Home rulers to take the seat by default. These members will oppose any attempt to declare that there shall be made no fight in the district.

It would appear to be the feeling of very many of the committee that the matter should be decided now, only as to the fact that there should or should not be a nomination, and the choosing of the person who is to make the race left until a later time. There probably will not be any selection made by the Territorial committee under any consideration, owing to the fact that usually it is considered more proper Republican form to have the nominations for any office made by mass meetings or conventions. There are no candidates spoken of except Mr. Gilman, and he declares emphatically that he will have nothing to do with the fight.

The hardest fight will be upon the secretaryship. At the last meeting it was decided that the secretary should be chosen from the membership of the committee, while he should be given the heavy work of correspondence and an assistant secretary. There are

thought to be only two names which have been mentioned for this place. These are Col. J. H. Fisher and W. J. Coelho. Colonel Fisher does not wish to undertake the work, but it is probable that his friends will insist to such an extent that he will give in and make the fight. There seems to be no one in the race for the assistant secretaryship but Acting Secretary Avery, and there may be given to the fight such a turn that previous action will be rescinded.

The outlook is for a large attendance upon the meeting, owing to the new rule, that each person attending the meeting may hold but two proxies. This will make a change in the vote, owing to the fact that without doubt there will be certain committeemen who will not be able to find members either of the committee or convention, who will be able to serve as proxies. The vote may be smaller than at the recent meetings, but there will be several more men present. Two proxies are in the hands of C. H. Dickey, member of the Legislature, and two have been placed with L. L. McCandless. There are others who have had proxies offered them, but they will not be able to attend the meeting.

Active work of preparing for the reorganization of the party will be undertaken very soon after the election of a secretary, and it is probable that a sub-committee will be named this evening for the carrying out of certain plans for furthering party rehabilitation.

It is expected there will be ready for submission to the committee the report of the sub-committee appointed to frame a bill for submission to Congress which will define the length of terms of the Senators. Should it be approved, it is the intention to rush it forward on the very first mail so that it may be pushed through at once.

FEDERAL COURT.

Immediately upon his return from Hilo Saturday Judge Estee issued an order for a special term of United States Court to begin Monday, February 24th. The new term will be for the sole purpose of hearing the case of the United States vs. the Honolulu Plantation Co., though of course other court business may be transacted at the same time. This morning Judge Estee will order a venire of twenty-four petit jurors to be drawn to hear the case, though it is extremely doubtful if a jury of twelve can be secured from that number.

This being the third trial of a Pearl Harbor case and several hundred jurors having already been drawn or rejected upon similar questions, it will be extremely difficult to find an impartial or unprejudiced jury, one which has not formed or expressed an opinion upon the questions at issue. The venire will include men from all the islands and it is barely possible that with this aid a jury can be secured. If, however, it is impossible to secure a jury which is satisfactory to both sides, Judge Estee will hear the case himself. He has a right to do this, but is very loath to accept the responsibility if it can be avoided. Under the law twenty days must intervene between a special and a regular term, otherwise the case would have been taken up immediately upon the return of Judge Estee from Hilo.

The second trial of the Honolulu Plantation Co. case will not interfere with the plans of the United States as regards the Pearl Harbor naval station. Captain Merry has already formally taken possession of the Bishop Estate land by virtue of the decree in the first case, and though the Honolulu Plantation Co. still holds the lease this will not be allowed to interfere with any work that might be done upon the naval station land.

Judge Estee and Clerk Maling returned from Hilo by the Kilauea on Saturday. They had a very rough trip coming over, though both enjoyed the visit to the Rarai City.

"We held court two days," said Judge Estee yesterday, "and managed to dispose of all the business that was to be done. There was one bankruptcy case and several minor matters, but hardly enough business to justify the trip we made. The trip was rather rough and disagreeable, it is well worth going. The case on Hawaii is in splendid condition and a sight of the sea of vegetation some six or seven miles deep off the shore alone repays one for the journey. The growing cane stretches for a distance of fifty miles, and it appears from the steamer to be all one immense plantation. The mills are grinding full time and everything has a very busy aspect."

If there is no more work at Hilo next year than there was this trip to Hilo may be abandoned by Judge Estee. The law makes mandatory the holding court at least once a year in Hilo, but the clerk can open and close court as well as the Judge, and this may be done next year.

New Overland Line

DENVER, Jan. 25.—The News today says: Surveys are being made and rights of way secured in the district west of Salt Lake City to San Francisco by agents representing George Gould and his associates, which indicate that within another year the Rio Grande systems in Colorado and Utah and the Gould connections east of this State will, together with a new line west of Salt Lake City, form a great transcontinental route to rival the Union Pacific and Santa Fe roads.

The route of the proposed new line west of Salt Lake will be from Salt Lake across the desert through Eureka, Nev., to Walker Pass, then beyond to the Kern river, up the Tulare valley to San Francisco. The line will pass forty mining camps of Utah and Nevada, including eighteen districts in the Deer Creek, Utah, vicinity. The survey across the desert in Sierra Nevada range is 1500 feet lower than any other pass in the upper country.

The Baltimore syndicate which has an option on the San Francisco Market street railway may abandon the project and forfeit the first payment of \$250,000.

ELECTRICITY FOR
CONSUMPTION

NEW YORK, Jan. 25.—Experiments are being made on a most elaborate scale in London, with a modification of Tesla's high frequency electrical current, in the treatment of consumption. It is stated that some remarkable results have been achieved, and the London correspondent of the Herald.

These experiments, for the most part have been conducted by Dr. T. J. Bokenham, an eminent West End surgeon, in the course of his private practice, but with the knowledge and approval of leading consumption specialists. For various reasons, but principally because of evil results which might ensue if the system were used by any but the most experienced medical men, with a perfect knowledge of the forces they were dealing with, the experiments have been quietly conducted. Applications for details of the methods used have not been encouraged. Dr. Bokenham has had fitted up a most elaborate apparatus for the production of electricity in the particular form in which it is used, the net result of which is that a current of 80,000 volts is produced, of such high frequency and administered in such small quantities that the consumptive patient may receive it without the slightest injury. The awe-inspiring force of this voltage may be best appreciated when it is remembered that only 500 volts are employed for driving trains on a railway. Yet the patient is not conscious of the enormous electrical pressure.

Dr. Bokenham's experience is that in very bad cases of consumption the cough has been greatly reduced, night sweats have disappeared, the appetite has improved and there has been a great gain in weight and general health. So that even if the consumption bacilli have not been destroyed, it is certain that their virulence has been much decreased; that they have been brought under control and that the patient has felt cured. A doubt entertained by phthisis specialists, who do not question this temporary improvement, is whether it is anything but a mere exhilaration. Dr. Bokenham, however, has great faith in the future of the system.

SIGHT RESTORED.

Atrophy of the Optic Nerve May Now Be Cured.

BALTIMORE, Md., January 21.—United States Senator Money, who had exhausted all the resources of American and European oculists in a fruitless effort to restore his rapidly declining eyesight, tonight declared that his sight is now fully restored and daily growing stronger.

Sensor Money's disease was atrophy of the optic nerve, which has heretofore invariably resulted in total blindness. There have been some cases in which the disease was somewhat retarded, but never cured. It is the disease which has caused the blindness of Broadway House, the New York millionaire, who has offered \$100,000 to any one who could cure him, and Dr. H. P. Garay, who is treating Senator Money, is convinced that he could cure the \$100,000 if Rouse's trouble were now in his incipency.

Dr. Garay's method is an oscillating treatment, and, roughly speaking, consists in pulling the patient's eye out of his head and letting it go back again, thus stimulating the nerves and building up wasted tissues. The method is absolutely painless and perfectly harmless.

More Restriction

SAN FRANCISCO, Jan. 25.—Instructions have been received from the Treasury Department by the Chinese Bureau, that no laborer may be permitted to return to this country after a visit abroad unless he owns property here valued at \$1,000, or has book accounts outstanding which would net him that amount. The practice of allowing Chinese laborers to return if debts are due them in the amount of \$1,000, note may be represented by a promissory note, is to be discontinued.

MOBILE, Ala., Jan. 25.—Fire early today in the wholesale business district destroyed property to the value of at least \$200,000 and caused the death of Richard H. Vidmer, a leading society man of Mobile, and Pat Thomas, a negro laborer, from New Orleans. Three firemen were injured, two slightly and one painfully.

DECIDE ON
EXCHANGEMaster Builders'
Plan for the
Future.

WHEN the annual meeting of the Master Builders' Association is held tomorrow there will be decided the question of the immediate inauguration of the plan of holding a daily "Change hour," as is the course in the mainland cities. The plans are all made and arrangements complete in so far as the officials of the Association are competent to do the business.

The meeting of the Board of Directors of the Association, held yesterday, was largely attended and unanimous in its action. It was reported that the Association had options on two adjoining rooms to that which it now occupies, in the Elite building, and which will make it possible to have a "Change room," an office and two private rooms for consultations, immediately adjoining, so that the one suite will hold all the business apartments of the Association. The plan is to have the Association authorize the holding of the daily call, when there will be at the Board rooms all members of the Association, at some time during the open hour.

There were a large number of applications for membership received by the Board yesterday, indicating that the idea of the Exchange has taken hold upon the fancy of the men interested in the building trades, with some force. The new applications come principally from the firms which handle building materials or are brought into contact in business with the men who are contractors for construction. The result of the action of the Board in putting the matter before the men in such lines has been that there are on file applications for admission from one-half of all the firms in the city who under the resolution of the Board are eligible for membership.

It is the intention of the Board to have as many of the would-be members finally passed before the meeting of Wednesday as possible, so that there will be nothing done which will not have the fullest consideration and the new officers elected will represent the wishes of the largest number of the members possible.

While as yet there has arisen nothing which would indicate possibilities of a political nature, there has been some desire on the part of the masters to elect such officers as will give to the Association strength, which will enable it to endeavor to have passed at the next meeting of the Legislature laws which will further protect the constructors of the Territory, though there have been no definite reforms decided upon as necessary.

Among those who have indicated their intention to become members of the Association are men in all lines of trade. The merchants dealing in lumber and hardware, brick, lime and cement, the masters of the plumbing, painting and other trades, as well as the general contractors, are now on the lists and the membership of the Association promises to be doubled by the incoming of new men.

It is the intention of the originators of the plan to have the Association so conduct its "Change hour" that during the hour, 12:30 to 1:30, every member, either in person or through his clerk, will be in the rooms where he may be seen by any one having business with him, from the seller of materials to owners of property, and to have the attendance rule so strictly enforced that there will be no difficulty in finding the men wanted each day.

HONOLULU WEDS
A MAUI BELLE

A pretty wedding in Wailuku, Maui, on Saturday last, was that of Miss Helen Butler, one of the belles of the Maui capital, and Mr. Stephen Alencastre, of Honolulu. The wedding took place in the early morning. The ceremony occurred in the Catholic church, Father Libert officiating.

At 7 o'clock the bridal party entered the chapel, where they were met by the strains of the wedding march from Lohengrin. The bride was attired in a beautiful white silk gown with hat to match. The bridesmaid, Miss Borba, wore white organdie. The bridal party partook of a breakfast, and at 9 o'clock started for Lahaina, many friends accompanying the bride and groom to Wailuku, where the farewells were said.

The couple came to Honolulu, and will reside for the present at Waikiki. The groom is connected with a business firm in this city.

Contracts Awarded.

The contracts for dredging Honolulu harbor were awarded on Saturday morning. The contract for the first section goes to the Hawaiian Dredging Company. The section extends from the Pacific Mail wharf to the new wharves. Work is to begin within fifteen days from date. Contract No. 2 went to Cotton Bros. & Co., whose section lies between the first section and Queen street. The contractors engage to dredge the area specified to a depth of forty feet or thereabouts for eleven dollars an hour, or at the rate of 39 cents a cubic yard if a different system of dredging be deemed advisable by the Superintendent of Public Works. The Hawaiian Dredging Company agree to do their work conditionally, for \$12.50 an hour. Only two bids were received.

Yesterday morning a grocer's horse and wagon, which were careering furiously along Hotel street, were brought to a standstill by Officer Kane Jr., near Maunakea street. Kane grabbed the rear of the wagon, and jumping in, seized the reins and brought the horse and vehicle to a sudden stop.

NO MEETING OF SECOND
CONGREGATION YESTERDAY

(From Monday's daily.)

FOR the first time in years the members of the Second Congregation did not meet for divine worship Sunday. Bishop Willis was in Hilo, but the orders he left behind were implicitly obeyed, and neither Rev. Alex. Mackintosh nor the members of his flock attempted to disregard them.

Bishop Willis advertised a service for 9 o'clock yesterday morning in order to prevent a possible worship by the Second Congregation, but when that hour came the church doors were closed—and locked. Only the early morning service was held, conducted by Canon Kiteat. Rev. Mr. Mackintosh taught his Sunday School class as usual, and several of the members of the congregation were interested spectators and listeners as the catechism was propounded to the little folks in the Sisters' parlor which had been kindly offered for the purpose.

There will be no interference with the Bishop's dictates until an answer is received from the American House of Bishops upon the appeal made by the Second Congregation and Rev. Mr. Mackintosh. Until such time the Second Congregation will not attempt to hold services in the church, but when the ruling does come, it will be followed implicitly, even though it means the invocation of civil law to secure the rights, which Bishop Willis refuses under church statutes.

"The Second Congregation held no service this morning," said the Rev. Mr. Mackintosh last evening, "though if the church doors had not been locked we undoubtedly would have attended to worship as usual. As it is, now, there will be no interference with

the Bishop's actions until we get from the American Bishops a decision upon our appeal. Whatever advice they give shall be implicitly obeyed, even though it might mean no action of any kind until April 1st. If we are advised that we are in the right in this matter, we shall certainly assert those rights, and insist upon worshiping in our own church. If the Bishop then refuses to take cognizance of church law we must resort to civil action."

"The Bishop has no regard for canonical law as I intend to show by publishing in the next issue of the Anglican Church Chronicle the canonical statutes, giving the case in full, and point out also where he has openly and directly violated different sections. I should have been given a trial by the synod before the Bishop took up my license, as he says he has done. He was accuser, judge and executioner, all in one, and allowed no defense or trial as provided in the canons."

"We are still amenable to the Archbishop of Canterbury, and answerable to the Church of England until the American church assumes jurisdiction. There is no transition period for us. The church is under the jurisdiction of the Anglican church. The Bishop should have given us at least three months' notice before making such an order as he did in requiring the Second Congregation to sign his register. Under ordinary circumstances six months' notice would have been given, but Bishop Willis made fifteen days the limit, and we had no opportunity to appeal and learn our status before the order took effect. The next steamer should, however, bring an answer to our appeal, and we may be able to worship in our church as usual next Sunday."

NOTIONS At Price a which will be A. attractive & every W. man.
